

## Practice Activity Number 11

Just a short Practice Activity about web page development.

Create a HTML web page.

- Add into the Body:  
This is my web page.  
It even includes a link to Google.
- Make sure that there is either a line or paragraph break at the end of the first line.
- Put the words "my web page" in bold.
- Add a hyperlink, so that it goes to Google.com when you click on the word "Google".
- Have a look at the finished web page.

Add a CSS file.

- Add a reference to it in the HTML web page. You will need code such as:  
`<link rel="stylesheet" href="StyleSheet1.css" />`
- In the CSS file, change the Body so that it has the color Blue.
- Have a look at the finished web page.
